

TILLMAN®

875 | ElkSkin Stick Welding Glove

SPECIFICATION SHEET

Description

The Tillman 875 ElkSkin Welding Glove is the black version of Tillman's most popular glove for pipeline stick welding applications. The 875 is great for withstanding the high heat from stick welding applications.

Made of supple ElkSkin, the 875 resists cracking, stiffening, and maintains the soft feeling in hot environments while protecting hands. The welted fingers contain an extra leather layer between fingers for added spark resistance and durability.

A reinforced thumb gives you the great gripping power needed for heavy-duty welding. A foam lined back provides additional protection from heat and flame protection while providing the dexterity needed.

Features

- Black premium ElkSkin stays soft even when hot.
- 14" length.
- Durable Welted fingers protect stitching.
- Reinforced thumb for added strength.
- Cotton/foam lined back for added heat protection, unlined palm for enhanced dexterity.
- Sewn with DuPont™ Kevlar® for added strength
- Sizes: M, L, XL

Technical Specifications

Glove Material: Top grain ElkSkin
Cuff Material: Top grain ElkSkin
Lining: Foam & Cotton
Stitching: DuPont™ Kevlar®
Closure: Straight cuff

Applications

- Construction sites
- Wind energy
- Utility crews
- Fabrication
- Steel Mills
- Oil & Gas
- Oil pipelines
- Demolition & salvage
- Shipyards
- Manufacturing
