

21" Split Cowhide Stick Glove with RestPatch™

Durable cowhide long cuff stick glove is ideal for leaning against hot weld surfaces for extended runs. Exclusive RestPatch® provides wrist and forearm padding.

GS1321 Sizes: L, XL

KEVLAR® STITCHING
provides greater protection against sparks, with better abrasion resistance and durability

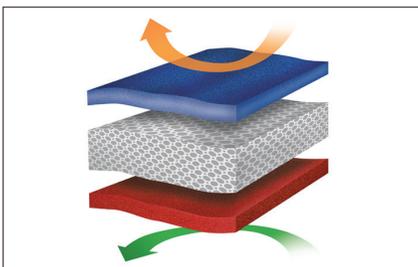

EXTENDED RESTPATCH®
provides extra wrist and forearm padding for enhanced comfort

WELTED SEAMS
ensure seam integrity for glove longevity

WIDE STRAPS ON PALM
provide extra reinforcement in a key stress area

Targeted Applications & Industries

Designed for STICK welders, specifically for the demands of long run stick welding applications. Extended cuff, padded insulation on palm and back of hand, and durable cowhide leather are characteristics of a high-quality stick glove.

Exclusive CushionCore™ padded liner provides extra heat-blocking comfort

Wide reinforcements provide extra protection in high wear areas and help extend the life of the glove
